

Evx2 Antibody (C-term) Blocking Peptide
Synthetic peptide
Catalog # BP1427b**Specification**

Evx2 Antibody (C-term) Blocking Peptide - Product InformationPrimary Accession [P49749](#)**Evx2 Antibody (C-term) Blocking Peptide - Additional Information****Gene ID** 14029**Other Names**

Homeobox even-skipped homolog protein 2, EVX-2, Evx2, Evx-2

Target/Specificity

The synthetic peptide sequence used to generate the antibody [AP1427b](/product/products/AP1427b) was selected from the C-term region of human Evx2. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

Evx2 Antibody (C-term) Blocking Peptide - Protein Information**Name** Evx2**Synonyms** Evx-2**Cellular Location**

Nucleus.

Evx2 Antibody (C-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

Evx2 Antibody (C-term) Blocking Peptide - Background

Evx-2, a protein related to the Drosophila even-skipped (eve) , is expressed in limbs like the neighbouring Hoxd genes. Evx-2 functions like a Hoxd gene.
