

**Mouse Mesp1 Antibody (Center) Blocking Peptide**  
**Synthetic peptide**  
**Catalog # BP16455c****Specification**

---

**Mouse Mesp1 Antibody (Center) Blocking Peptide - Product Information**Primary Accession [P97309](#)**Mouse Mesp1 Antibody (Center) Blocking Peptide - Additional Information****Gene ID** 17292**Other Names**

Mesoderm posterior protein 1, Mesp1

**Format**

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

**Storage**

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

**Precautions**

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

**Mouse Mesp1 Antibody (Center) Blocking Peptide - Protein Information****Name** Mesp1**Function**

Transcription factor. Plays a role in the epithelialization of somitic mesoderm and in the development of cardiac mesoderm. Defines the rostrocaudal patterning of the somites by participating in distinct Notch pathways.

**Cellular Location**

Nucleus.

**Tissue Location**

No expression was detected in adult tissues except the testis. Expression in the testis was regulated developmentally; expressed 2 weeks after birth, and increases, reaching the full expression level in mature testes.

**Mouse Mesp1 Antibody (Center) Blocking Peptide - Protocols**

Provided below are standard protocols that you may find useful for product applications.
