

SSC5D Antibody (Center) Blocking Peptide
Synthetic peptide
Catalog # BP16565c**Specification**

SSC5D Antibody (Center) Blocking Peptide - Product Information

Primary Accession [A1L4H1](http://www.uniprot.org/uniprot/A1L4H1)
Other Accession http://www.uniprot.org/uniprot/A1L4H1==A1L4H1@@http://www.ncbi.nlm.nih.gov/protein/NP_001138422.1==N

SSC5D Antibody (Center) Blocking Peptide - Additional Information

Gene ID 284297

Other Names

Soluble scavenger receptor cysteine-rich domain-containing protein SSC5D, Soluble scavenger protein with 5 SRCR domains, SSc5D, SSC5D

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

SSC5D Antibody (Center) Blocking Peptide - Protein Information

Name SSC5D

Function

Binds to extracellular matrix proteins. Binds to pathogen- associated molecular patterns (PAMPs) present on the cell walls of Gram-positive and Gram-negative bacteria and fungi, behaving as a pattern recognition receptor (PRR). Induces bacterial and fungal aggregation and subsequent inhibition of PAMP-induced cytokine release. Does not possess intrinsic bactericidal activity. May play a role in the innate defense and homeostasis of certain epithelial surfaces (By similarity).

Cellular Location

Secreted. Cytoplasm.

Tissue Location

Highly expressed in monocytes/macrophages and T- lymphocytes. Highly expressed in placenta and spleen, and also detected at lower levels in colon, and more weakly in lung, heart and kidney

SSC5D Antibody (Center) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.
