

NHLH1 Antibody (Center) Blocking Peptide
Synthetic peptide
Catalog # BP16897c**Specification**

NHLH1 Antibody (Center) Blocking Peptide - Product InformationPrimary Accession [Q02575](#)**NHLH1 Antibody (Center) Blocking Peptide - Additional Information****Gene ID** 4807**Other Names**

Helix-loop-helix protein 1, HEN-1, Class A basic helix-loop-helix protein 35, bHLHa35, Nescient helix loop helix 1, NSCL-1, NHLH1, BHLHA35, HEN1

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

NHLH1 Antibody (Center) Blocking Peptide - Protein Information**Name** NHLH1**Synonyms** BHLHA35, HEN1**Function**

May serve as DNA-binding protein and may be involved in the control of cell-type determination, possibly within the developing nervous system.

Cellular Location

Nucleus {ECO:0000255|PROSITE-ProRule:PRU00981}.

NHLH1 Antibody (Center) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

NHLH1 Antibody (Center) Blocking Peptide - Background

The helix-loop-helix (HLH) proteins are a family of putative transcription factors, some of which have been shown to play an important role in growth and development of a wide variety of tissues and species. Four members of this family have been clearly implicated in tumorigenesis via their involvement in chromosomal translocations in lymphoid tumors: MYC (MIM 190080), LYL1 (MIM 151440), E2A (MIM 147141), and SCL (MIM 187040). [supplied by OMIM].
