

**SOCS7 Antibody (C-term) Blocking Peptide**  
**Synthetic peptide**  
**Catalog # BP171111b****Specification**

---

**SOCS7 Antibody (C-term) Blocking Peptide - Product Information**Primary Accession [O14512](#)**SOCS7 Antibody (C-term) Blocking Peptide - Additional Information****Gene ID** 30837**Other Names**

Suppressor of cytokine signaling 7, SOCS-7, Nck, Ash and phospholipase C gamma-binding protein, Nck-associated protein 4, NAP-4, SOCS7, NAP4, SOCS6

**Format**

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

**Storage**

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

**Precautions**

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

**SOCS7 Antibody (C-term) Blocking Peptide - Protein Information****Name** SOCS7**Synonyms** NAP4, SOCS6**Function**

Regulates signaling cascades probably through protein ubiquitination and/or sequestration. Functions in insulin signaling and glucose homeostasis through IRS1 ubiquitination and subsequent proteasomal degradation. Inhibits also prolactin, growth hormone and leptin signaling by preventing STAT3 and STAT5 activation, sequestering them in the cytoplasm and reducing their binding to DNA. May be a substrate recognition component of a SCF-like E3 ubiquitin-protein ligase complex which mediates the ubiquitination and subsequent proteasomal degradation of target proteins (By similarity).

**Cellular Location**

Cytoplasm. Cell membrane; Peripheral membrane protein; Cytoplasmic side. Nucleus. Note=Mostly cytoplasmic, but shuttles between the cytoplasm and the nucleus. Rapidly relocates to the nucleus after UV irradiation. Cytoplasmic location depends upon SEPT7 presence

**Tissue Location**

Expressed in brain and leukocytes. Also in fetal lung fibroblasts and fetal brain.

## **SOCS7 Antibody (C-term) Blocking Peptide - Protocols**

Provided below are standard protocols that you may find useful for product applications.
