

HLF Antibody (C-term) Blocking Peptide
Synthetic peptide
Catalog # BP17419b**Specification**

HLF Antibody (C-term) Blocking Peptide - Product InformationPrimary Accession [Q16534](#)**HLF Antibody (C-term) Blocking Peptide - Additional Information****Gene ID** 3131**Other Names**

Hepatic leukemia factor, HLF

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

HLF Antibody (C-term) Blocking Peptide - Protein Information**Name** HLF**Cellular Location**

Nucleus.

Tissue Location

Highly expressed in liver; lower levels in lung and kidney

HLF Antibody (C-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

HLF Antibody (C-term) Blocking Peptide - Images**HLF Antibody (C-term) Blocking Peptide - Background**

This gene encodes a member of the proline and acidic-rich(PAR) protein family, a subset of the bZIP transcription factors. The encoded protein forms homodimers or heterodimers with other

PARfamily members and binds sequence-specific promoter elements to activate transcription. Chromosomal translocations fusing portions of this gene with the E2A gene cause a subset of childhood B-lineage acute lymphoid leukemias. Alternatively spliced transcript variants have been described, but their biological validity has not been determined.
