

TAS2R20 Antibody (Center) Blocking Peptide
Synthetic peptide
Catalog # BP17669c**Specification**

TAS2R20 Antibody (Center) Blocking Peptide - Product Information

Primary Accession [P59543](#)

TAS2R20 Antibody (Center) Blocking Peptide - Additional Information

Gene ID 259295

Other Names

Taste receptor type 2 member 20, Taste receptor type 2 member 49, T2R49, Taste receptor type 2 member 56, T2R56, TAS2R20, TAS2R49

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

TAS2R20 Antibody (Center) Blocking Peptide - Protein Information

Name TAS2R20

Synonyms TAS2R49

Function

Receptor that may play a role in the perception of bitterness and is gustducin-linked. May play a role in sensing the chemical composition of the gastrointestinal content. The activity of this receptor may stimulate alpha gustducin, mediate PLC-beta-2 activation and lead to the gating of TRPM5 (By similarity).

Cellular Location

Membrane; Multi-pass membrane protein.

Tissue Location

Expressed in subsets of taste receptor cells of the tongue and exclusively in gustducin-positive cells

TAS2R20 Antibody (Center) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.
