

SNX11 Antibody (Center) Blocking Peptide
Synthetic peptide
Catalog # BP18813c

Specification

SNX11 Antibody (Center) Blocking Peptide - Product Information

Primary Accession [Q9Y5W9](#)

SNX11 Antibody (Center) Blocking Peptide - Additional Information

Gene ID 29916

Other Names

Sorting nexin-11, SNX11

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

SNX11 Antibody (Center) Blocking Peptide - Protein Information

Name SNX11

Function

Phosphoinositide-binding protein involved in protein sorting and membrane trafficking in endosomes.

Cellular Location

Membrane; Peripheral membrane protein; Cytoplasmic side. Endosome

SNX11 Antibody (Center) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

SNX11 Antibody (Center) Blocking Peptide - Background

This gene encodes a member of the sorting nexin family. Members of this family contain a phox

(PX) domain, which is a phosphoinositide binding domain, and are involved in intracellular trafficking. This protein does not contain a coiled coil region, like some family members. This gene encodes a protein of unknown function. This gene results in two transcript variants differing in the 5' UTR, but encoding the same protein.
