

GANC Antibody (N-term) Blocking Peptide
Synthetic peptide
Catalog # BP18822a**Specification**

GANC Antibody (N-term) Blocking Peptide - Product InformationPrimary Accession [Q8TET4](#)**GANC Antibody (N-term) Blocking Peptide - Additional Information****Gene ID** 2595**Other Names**

Neutral alpha-glucosidase C, GANC

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

GANC Antibody (N-term) Blocking Peptide - Protein Information**Name** GANC**Function**

Has alpha-glucosidase activity.

GANC Antibody (N-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

GANC Antibody (N-term) Blocking Peptide - Images**GANC Antibody (N-term) Blocking Peptide - Background**

Glycosyl hydrolase enzymes hydrolyse the glycosidic bond between two or more carbohydrates, or between a carbohydrate and a non-carbohydrate moiety. This gene encodes a member of glycosylhydrolases family 31. This enzyme hydrolyses terminal, non-reducing 1,4-linked alpha-D-glucose residues and releases alpha-D-glucose. This is a key enzyme in glycogen metabolism and its gene localizes to a chromosomal region (15q15) that is associated

with susceptibility to diabetes.
