

KIAA1715 Antibody (N-term) Blocking Peptide
Synthetic peptide
Catalog # BP18933a**Specification**

KIAA1715 Antibody (N-term) Blocking Peptide - Product InformationPrimary Accession [Q9C0E8](#)**KIAA1715 Antibody (N-term) Blocking Peptide - Additional Information**

Gene ID 80856

Other Names

Protein lunapark, LNP, KIAA1715

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

KIAA1715 Antibody (N-term) Blocking Peptide - Protein InformationName LNPK ([HGNC:21610](#))**Function**

Endoplasmic reticulum (ER)-shaping membrane protein that plays a role in determining ER morphology (PubMed:30032983). Involved in the stabilization of nascent three-way ER tubular junctions within the ER network (PubMed:24223779, PubMed:25404289, PubMed:25548161, PubMed:27619977). May also play a role as a curvature-stabilizing protein within the three-way ER tubular junction network (PubMed:25404289). May be involved in limb development (By similarity). Is involved in central nervous system development (PubMed:30032983).

Cellular Location

Endoplasmic reticulum membrane; Multi-pass membrane protein; Cytoplasmic side
Note=Localizes at endoplasmic reticulum (ER) three-way tubular junctions, which represent crossing-points at which the tubules build a polygonal network (PubMed:22729086, PubMed:24223779, PubMed:25404289, PubMed:25548161, PubMed:27619977).

Tissue Location

Expressed in neural precursor cells, where it is detected at the growth-cone-like structure and branching sites of neurite-like processes.

KIAA1715 Antibody (N-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.
