

## MED30 Antibody (Center) Blocking Peptide

Synthetic peptide Catalog # BP19149c

## **Specification**

## MED30 Antibody (Center) Blocking Peptide - Product Information

**Primary Accession** 

**Q96HR3** 

## MED30 Antibody (Center) Blocking Peptide - Additional Information

**Gene ID 90390** 

### **Other Names**

Mediator of RNA polymerase II transcription subunit 30, Mediator complex subunit 30, TRAP/Mediator complex component TRAP25, Thyroid hormone receptor-associated protein 6, Thyroid hormone receptor-associated protein complex 25 kDa component, Trap25, MED30, THRAP6, TRAP25

#### **Format**

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

## **Storage**

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

### **Precautions**

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

# MED30 Antibody (Center) Blocking Peptide - Protein Information

Name MED30

Synonyms THRAP6, TRAP25

### **Function**

Component of the Mediator complex, a coactivator involved in the regulated transcription of nearly all RNA polymerase II-dependent genes. Mediator functions as a bridge to convey information from gene- specific regulatory proteins to the basal RNA polymerase II transcription machinery. Mediator is recruited to promoters by direct interactions with regulatory proteins and serves as a scaffold for the assembly of a functional preinitiation complex with RNA polymerase II and the general transcription factors.

### **Cellular Location**

Nucleus.

### **Tissue Location**

Expressed in brain, heart, kidney, liver, lung, pancreas, placenta and skeletal muscle.

## MED30 Antibody (Center) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

## • Blocking Peptides

## MED30 Antibody (Center) Blocking Peptide - Background

The multiprotein TRAP/Mediator complex facilitates geneexpression through a wide variety of transcriptional activators.MED30 is a component of this complex that appears to be metazoanspecific (Baek et al., 2002 [PubMed 11909976]).
