

FCRL2 Antibody (C-term) Blocking Peptide
Synthetic peptide
Catalog # BP19496b**Specification**

FCRL2 Antibody (C-term) Blocking Peptide - Product Information**FCRL2 Antibody (C-term) Blocking Peptide - Additional Information****Format**

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

FCRL2 Antibody (C-term) Blocking Peptide - Protein Information**FCRL2 Antibody (C-term) Blocking Peptide - Protocols**

Provided below are standard protocols that you may find useful for product applications.

FCRL2 Antibody (C-term) Blocking Peptide - Images**FCRL2 Antibody (C-term) Blocking Peptide - Background**

This gene encodes a member of the immunoglobulin receptorsuperfamily and is one of several Fc receptor-like glycoproteinsclustered on the long arm of chromosome 1. The encoded protein hasfour extracellular C2-type immunoglobulin domains, a transmembranedomain and a cytoplasmic domain that contains oneimmunoreceptor-tyrosine activation motif and twoimmunoreceptor-tyrosine inhibitory motifs. This protein may be aprognostic marker for chronic lymphocytic leukemia. Alternativelsplined transcript variants have been described, but theirbiological validity has not been determined.
