

GAPT Blocking Peptide(Center)
Synthetic peptide
Catalog # BP19800C**Specification**

GAPT Blocking Peptide(Center) - Product Information

Primary Accession [Q8N292](#)
Other Accession [NP_689900.1](#)

GAPT Blocking Peptide(Center) - Additional Information

Gene ID 202309

Other Names

Protein GAPT, Growth factor receptor-bound protein 2-binding adapter protein, transmembrane, GAPT, C5orf29

Target/Specificity

The synthetic peptide sequence is selected from aa 99-112 of HUMAN GAPT

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

GAPT Blocking Peptide(Center) - Protein Information

Name GAPT

Synonyms C5orf29

Function

Negatively regulates B-cell proliferation following stimulation through the B-cell receptor. May play an important role in maintenance of marginal zone (MZ) B-cells (By similarity).

Cellular Location

Cell membrane; Single-pass membrane protein

Tissue Location

Highly expressed in spleen and PBL, detected at lower levels in thymus, and undetectable in all other tissues tested Also expressed in various B-cell lines, monocytic cell line THP-1 and NK-like cell line YT, but not in T-cell line Jurkat or HeLa cells

GAPT Blocking Peptide(Center) - Protocols

Provided below are standard protocols that you may find useful for product applications.
