

GHRL Blocking Peptide (N-Term) Synthetic peptide Catalog # BP21965a

## Specification

# **GHRL Blocking Peptide (N-Term) - Product Information**

Primary Accession

<u>Q9UBU3</u>

**GHRL Blocking Peptide (N-Term) - Additional Information** 

Gene ID 51738

**Other Names** 

Appetite-regulating hormone, Growth hormone secretagogue, Growth hormone-releasing peptide, Motilin-related peptide, Protein M46, Ghrelin-27, Ghrelin-28, Ghrelin, Obestatin, GHRL, MTLRP

#### Target/Specificity

The synthetic peptide sequence is selected from aa 31-43 of HUMAN GHRL

#### Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

**Storage** Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

**Precautions** This product is for research use only. Not for use in diagnostic or therapeutic procedures.

### **GHRL Blocking Peptide (N-Term) - Protein Information**

Name GHRL

Synonyms MTLRP

#### Function

[Ghrelin-27]: Ghrelin is the ligand for growth hormone secretagogue receptor type 1 (GHSR) (PubMed:<a href="http://www.uniprot.org/citations/10604470" target="\_blank">10604470</a>). Induces the release of growth hormone from the pituitary (PubMed:<a href="http://www.uniprot.org/citations/10604470" target="\_blank">10604470</a>). Has an appetite-stimulating effect, induces adiposity and stimulates gastric acid secretion. Involved in growth regulation.

Cellular Location Secreted.

**Tissue Location** Highest level in stomach. All forms are found in serum as well. Other tissues compensate for the

loss of ghrelin synthesis in the stomach following gastrectomy

# **GHRL Blocking Peptide (N-Term) - Protocols**

Provided below are standard protocols that you may find useful for product applications.

### GHRL Blocking Peptide (N-Term) - Background

Ghrelin is the ligand for growth hormone secretagogue receptor type 1 (GHSR). Induces the release of growth hormone from the pituitary. Has an appetite-stimulating effect, induces adiposity and stimulates gastric acid secretion. Involved in growth regulation.
