SEMA6A Antibody (Center) Blocking peptide

Synthetic peptide
Catalog # BP2740c

Specification

SEMA6A Antibody (Center) Blocking peptide - Product Information

Primary Accession	Q9H2E6
Other Accession	NP_065847.1

SEMA6A Antibody (Center) Blocking peptide - Additional Information

Gene ID 57556

Other Names
Semaphorin-6A, Semaphorin VIA, Sema VIA, Semaphorin-6A-1, SEMA6A-1, SEMA6A, KIAA1368, SEMAQ

Format
Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage
Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions
This product is for research use only. Not for use in diagnostic or therapeutic procedures.

SEMA6A Antibody (Center) Blocking peptide - Protein Information

Name SEMA6A

Synonyms KIAA1368, SEMAQ

Function
Cell surface receptor for PLXNA2 that plays an important role in cell-cell signaling. Required for normal granule cell migration in the developing cerebellum. Promotes reorganization of the actin cytoskeleton and plays an important role in axon guidance in the developing central nervous system. Can act as repulsive axon guidance cue. Has repulsive action towards migrating granular neurons. May play a role in channeling sympathetic axons into the sympathetic chains and controlling the temporal sequence of sympathetic target innervation.

Cellular Location
Cell membrane; Single-pass type I membrane protein
