

TAL1 Antibody (T90) Blocking Peptide
Synthetic peptide
Catalog # BP2754a**Specification**

TAL1 Antibody (T90) Blocking Peptide - Product InformationPrimary Accession [P17542](#)**TAL1 Antibody (T90) Blocking Peptide - Additional Information****Gene ID** 6886**Other Names**

T-cell acute lymphocytic leukemia protein 1, TAL-1, Class A basic helix-loop-helix protein 17, bHLHa17, Stem cell protein, T-cell leukemia/lymphoma protein 5, TAL1, BHLHA17, SCL, TCL5

Target/Specificity

The synthetic peptide sequence used to generate the antibody [AP2754a](/products/AP2754a) was selected from the T90 region of human TAL1. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

TAL1 Antibody (T90) Blocking Peptide - Protein Information**Name** TAL1**Synonyms** BHLHA17, SCL, TCL5**Function**

Implicated in the genesis of hemopoietic malignancies. It may play an important role in hemopoietic differentiation. Serves as a positive regulator of erythroid differentiation (By similarity).

Cellular Location

Nucleus {ECO:0000255|PROSITE-ProRule:PRU00981}.

Tissue Location

Leukemic stem cell.

TAL1 Antibody (T90) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.
