

PRL Antibody (S163) Blocking Peptide
Synthetic peptide
Catalog # BP2804d**Specification**

PRL Antibody (S163) Blocking Peptide - Product Information

Primary Accession [P01236](#)
Other Accession [NP_000939](#)

PRL Antibody (S163) Blocking Peptide - Additional Information

Gene ID 5617

Other Names

Prolactin, PRL, PRL

Target/Specificity

The synthetic peptide sequence used to generate the antibody [AP2804d](/products/AP2804d) was selected from the region of human PRL. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

PRL Antibody (S163) Blocking Peptide - Protein Information

Name PRL

Function

Prolactin acts primarily on the mammary gland by promoting lactation.

Cellular Location

Secreted.

PRL Antibody (S163) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.
