

#### **XTP3TPA Antibody (N-term) Blocking Peptide** Synthetic peptide

Catalog # BP2821a

### Specification

# XTP3TPA Antibody (N-term) Blocking Peptide - Product Information

Primary Accession

#### <u>Q9H773</u>

## XTP3TPA Antibody (N-term) Blocking Peptide - Additional Information

Gene ID 79077

**Other Names** dCTP pyrophosphatase 1, Deoxycytidine-triphosphatase 1, dCTPase 1, RS21C6, XTP3-transactivated gene A protein, DCTPP1, XTP3TPA

#### Target/Specificity

The synthetic peptide sequence used to generate the antibody <a href=/products/AP2821a>AP2821a</a> was selected from the N-term region of human XTP3TPA. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

## **Storage** Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

**Precautions** This product is for research use only. Not for use in diagnostic or therapeutic procedures.

## XTP3TPA Antibody (N-term) Blocking Peptide - Protein Information

Name DCTPP1 (HGNC:28777)

Function

Hydrolyzes deoxynucleoside triphosphates (dNTPs) to the corresponding nucleoside monophosphates. Has a strong preference for dCTP and its analogs including 5-iodo-dCTP and 5-methyl-dCTP for which it may even have a higher efficiency. May protect DNA or RNA against the incorporation of these genotoxic nucleotide analogs through their catabolism.

Cellular Location Mitochondrion. Nucleus. Cytoplasm, cytosol

## XTP3TPA Antibody (N-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.
