

Phospho-mouse BAD(S111) Antibody Blocking peptide
Synthetic peptide
Catalog # BP3777a**Specification**

Phospho-mouse BAD(S111) Antibody Blocking peptide - Product InformationPrimary Accession [Q61337](#)**Phospho-mouse BAD(S111) Antibody Blocking peptide - Additional Information****Gene ID** 12015**Other Names**

Bcl2-associated agonist of cell death, BAD, Bcl-2-binding component 6, Bcl-xL/Bcl-2-associated death promoter, Bcl2 antagonist of cell death, Bad, Bbc6

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

Phospho-mouse BAD(S111) Antibody Blocking peptide - Protein Information**Name** Bad**Synonyms** Bbc6**Function**

Promotes cell death. Successfully competes for the binding to Bcl-X(L), Bcl-2 and Bcl-W, thereby affecting the level of heterodimerization of these proteins with BAX. Can reverse the death repressor activity of Bcl-X(L), but not that of Bcl-2. Appears to act as a link between growth factor receptor signaling and the apoptotic pathways.

Cellular Location

Mitochondrion outer membrane. Cytoplasm. Note=Colocalizes with HIF3A isoform 2 in the cytoplasm (PubMed:21546903). Upon phosphorylation, locates to the cytoplasm.

Phospho-mouse BAD(S111) Antibody Blocking peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.
