

**IPP Antibody (C-term) Blocking Peptide**  
**Synthetic peptide**  
**Catalog # BP4720b****Specification**

---

**IPP Antibody (C-term) Blocking Peptide - Product Information**Primary Accession [Q9Y573](#)**IPP Antibody (C-term) Blocking Peptide - Additional Information****Gene ID** 3652**Other Names**

Actin-binding protein IPP, Intracisternal A particle-promoted polypeptide, IPP, Kelch-like protein 27, IPP, KLHL27

**Format**

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

**Storage**

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

**Precautions**

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

**IPP Antibody (C-term) Blocking Peptide - Protein Information****Name** IPP**Synonyms** KLHL27**Function**

May play a role in organizing the actin cytoskeleton.

**Cellular Location**

Cytoplasm, cytoskeleton.

**IPP Antibody (C-term) Blocking Peptide - Protocols**

Provided below are standard protocols that you may find useful for product applications.

- [Blocking Peptides](#)

**IPP Antibody (C-term) Blocking Peptide - Images****IPP Antibody (C-term) Blocking Peptide - Background**

IPP is a member of the kelch family of proteins, which is characterized by a 50 amino acid repeat which interacts with actin.
