

B3GALT6 Antibody (C-term) Blocking Peptide Synthetic peptide

Catalog # BP5011b

Specification

B3GALT6 Antibody (C-term) Blocking Peptide - Product Information

Primary Accession

<u>Q96L58</u>

B3GALT6 Antibody (C-term) Blocking Peptide - Additional Information

Gene ID 126792

Other Names

Beta-1, 3-galactosyltransferase 6, Beta-1, 3-GalTase 6, Beta3Gal-T6, Beta3GalT6, GAG GalTII, Galactosyltransferase II, Galactosylxylosylprotein 3-beta-galactosyltransferase, UDP-Gal:betaGal beta 1, 3-galactosyltransferase polypeptide 6, B3GALT6

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

B3GALT6 Antibody (C-term) Blocking Peptide - Protein Information

Name B3GALT6

Function

Beta-1,3-galactosyltransferase that transfers galactose from UDP-galactose to substrates with a terminal beta-linked galactose residue. Has a preference for galactose-beta-1,4-xylose that is found in the linker region of glycosaminoglycans, such as heparan sulfate and chondroitin sulfate. Has no activity towards substrates with terminal glucosamine or galactosamine residues.

Cellular Location Golgi apparatus, Golgi stack membrane; Single-pass type II membrane protein

Tissue Location Ubiquitous..

B3GALT6 Antibody (C-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.
