

**PDRG Antibody (N-term) Blocking Peptide**  
Synthetic peptide  
Catalog # BP6955a

**Specification**

---

**PDRG Antibody (N-term) Blocking Peptide - Product Information**

Primary Accession [O9NUG6](#)

**PDRG Antibody (N-term) Blocking Peptide - Additional Information**

**Gene ID** 81572

**Other Names**

p53 and DNA damage-regulated protein 1, PDRG1, C20orf126, PDRG

**Target/Specificity**

The synthetic peptide sequence used to generate the antibody [AP6955a](/products/AP6955a) was selected from the N-term region of human PDRG. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

**Format**

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

**Storage**

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

**Precautions**

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

**PDRG Antibody (N-term) Blocking Peptide - Protein Information**

**Name** PDRG1

**Synonyms** C20orf126, PDRG

**Function**

May play a role in chaperone-mediated protein folding.

**Cellular Location**

Cytoplasm.

**Tissue Location**

Predominantly expressed in normal testis and exhibits reduced but detectable expression in other organs

**PDRG Antibody (N-term) Blocking Peptide - Protocols**

Provided below are standard protocols that you may find useful for product applications.
