

**FAPP1 Antibody (C-term) Blocking Peptide**  
**Synthetic peptide**  
**Catalog # BP7499b****Specification**

---

**FAPP1 Antibody (C-term) Blocking Peptide - Product Information**Primary Accession [Q9HB20](#)**FAPP1 Antibody (C-term) Blocking Peptide - Additional Information**

Gene ID 65977

**Other Names**

Pleckstrin homology domain-containing family A member 3, PH domain-containing family A member 3, Phosphatidylinositol-four-phosphate adapter protein 1, FAPP-1, Phosphoinositol 4-phosphate adapter protein 1, PLEKHA3, FAPP1

**Target/Specificity**

The synthetic peptide sequence used to generate the antibody [AP7499b](/products/AP7499b) was selected from the C-term region of human FAPP1. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

**Format**

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

**Storage**

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

**Precautions**

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

**FAPP1 Antibody (C-term) Blocking Peptide - Protein Information**

Name PLEKHA3

Synonyms FAPP1

**Function**

Plays a role in regulation of vesicular cargo transport from the trans-Golgi network (TGN) to the plasma membrane (PubMed: [15107860](http://www.uniprot.org/citations/15107860)). Regulates Golgi phosphatidylinositol 4-phosphate (PtdIns(4)P) levels and activates the PtdIns(4)P phosphatase activity of SACM1L when it binds PtdIns(4)P in 'trans' configuration (PubMed: [30659099](http://www.uniprot.org/citations/30659099)). Binds preferentially to PtdIns(4)P (PubMed: [11001876](http://www.uniprot.org/citations/11001876), PubMed: [15107860](http://www.uniprot.org/citations/15107860)). Negatively

regulates APOB secretion from hepatocytes (PubMed:<a href="http://www.uniprot.org/citations/30659099" target="\_blank">30659099</a>).

**Cellular Location**

Golgi apparatus, trans-Golgi network membrane; Peripheral membrane protein. Note=Localizes to ER-trans Golgi network (TGN) contacts sites.

**Tissue Location**

Widely expressed.

**FAPP1 Antibody (C-term) Blocking Peptide - Protocols**

Provided below are standard protocols that you may find useful for product applications.

- [Blocking Peptides](#)

**FAPP1 Antibody (C-term) Blocking Peptide - Images****FAPP1 Antibody (C-term) Blocking Peptide - Background**

FAPP1 binds specifically to phosphatidylinositol-4-phosphate (PtdIns4P), but not to other phosphoinositides.
