

## LTBP1 Antibody (C-term) Blocking Peptide

Synthetic peptide Catalog # BP7780b

### **Specification**

## LTBP1 Antibody (C-term) Blocking Peptide - Product Information

**Primary Accession** 

**Q14766** 

# LTBP1 Antibody (C-term) Blocking Peptide - Additional Information

**Gene ID 4052** 

#### **Other Names**

Latent-transforming growth factor beta-binding protein 1, LTBP-1, Transforming growth factor beta-1-binding protein 1, TGF-beta1-BP-1, LTBP1

# **Target/Specificity**

The synthetic peptide sequence used to generate the antibody <a >AP7780b</a> was selected from the C-term region of human LTBP1. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

### **Format**

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

#### Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

#### **Precautions**

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

## LTBP1 Antibody (C-term) Blocking Peptide - Protein Information

Name LTBP1 (HGNC:6714)

#### **Function**

Key regulator of transforming growth factor beta (TGFB1, TGFB2 and TGFB3) that controls TGF-beta activation by maintaining it in a latent state during storage in extracellular space (PubMed:<a href="http://www.uniprot.org/citations/2022183" target="\_blank">2022183</a>, PubMed:<a href="http://www.uniprot.org/citations/8617200" target="\_blank">8617200</a>, PubMed:<a href="http://www.uniprot.org/citations/8939931" target="\_blank">8939931</a>, Associates specifically via disulfide bonds with the Latency-associated peptide (LAP), which is the regulatory chain of TGF-beta, and regulates integrin-dependent activation of TGF-beta (PubMed:<a href="http://www.uniprot.org/citations/8617200" target="\_blank">8617200</a>, PubMed:<a href="http://www.uniprot.org/citations/8939931" target="\_blank">8939931</a>, PubMed:<a href="http://www.uniprot.org/citations/15184403" target="\_blank">15184403</a>, PubMed:<a href="http://www.uniprot.org/citations/15184403" target="\_blank">15184403</a>). Outcompeted by LRRC32/GARP for binding to LAP regulatory chain of TGF-beta (PubMed:<a href="http://www.uniprot.org/citations/22278742" target=" blank">22278742</a>).

#### **Cellular Location**

Secreted. Secreted, extracellular space, extracellular matrix

#### **Tissue Location**

Expressed in the aorta (at protein level) (PubMed:17293099). Isoform Long: Expressed in fibroblasts (PubMed:17293099).

## LTBP1 Antibody (C-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

LTBP1 Antibody (C-term) Blocking Peptide - Images

### LTBP1 Antibody (C-term) Blocking Peptide - Background

LTBP1 may be involved in the assembly, secretion and targeting of TGFB1 to sites at which it is stored and/or activated. This protein may play critical roles in controlling and directing the activity of TGFB1, and it may have a structural role in the extra cellular matrix (ECM).
