

**SARS2 Antibody (N-term) Blocking Peptide**  
**Synthetic peptide**  
**Catalog # BP7837a****Specification**

---

**SARS2 Antibody (N-term) Blocking Peptide - Product Information**Primary Accession [Q9NP81](#)**SARS2 Antibody (N-term) Blocking Peptide - Additional Information****Gene ID** 54938**Other Names**

Serine--tRNA ligase, mitochondrial, SerRSmt, Seryl-tRNA synthetase, SerRS, Seryl-tRNA(Ser/Sec) synthetase, SARS2, SARSM

**Target/Specificity**

The synthetic peptide sequence used to generate the antibody [AP7837a](/products/AP7837a) was selected from the N-term region of human SARS2. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

**Format**

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

**Storage**

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

**Precautions**

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

**SARS2 Antibody (N-term) Blocking Peptide - Protein Information****Name** SARS2**Synonyms** SARSM**Function**

Catalyzes the attachment of serine to tRNA(Ser). Is also probably able to aminoacylate tRNA(Sec) with serine, to form the misacylated tRNA L-seryl-tRNA(Sec), which will be further converted into selenocysteinyl-tRNA(Sec).

**Cellular Location**

Mitochondrion matrix {ECO:0000250|UniProtKB:Q9N0F3}

## **SARS2 Antibody (N-term) Blocking Peptide - Protocols**

Provided below are standard protocols that you may find useful for product applications.
