

# **GMFG Antibody (C-term) Blocking Peptide**

Synthetic peptide Catalog # BP7871b

### **Specification**

## **GMFG Antibody (C-term) Blocking Peptide - Product Information**

Primary Accession

060234

## GMFG Antibody (C-term) Blocking Peptide - Additional Information

**Gene ID 9535** 

#### **Other Names**

Glia maturation factor gamma, GMF-gamma, GMFG

#### **Format**

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

#### Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

## **Precautions**

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

#### GMFG Antibody (C-term) Blocking Peptide - Protein Information

**Name GMFG** 

#### **Tissue Location**

Expressed predominantly in lung, heart and placenta

### GMFG Antibody (C-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

## Blocking Peptides

#### GMFG Antibody (C-term) Blocking Peptide - Background

Glia maturation factor gamma (GMFG) is a cytokine-responsive protein in erythropoietin-induced and granulocyte-colony stimulating factor-induced hematopoietic lineage development. It may be involved in glial differentiation, neural regeneration, and inhibition of tumor cell proliferation.
