

**DUSP13-L184 Antibody (C-term) Blocking Peptide**  
**Synthetic peptide**  
**Catalog # BP8455b****Specification**

---

**DUSP13-L184 Antibody (C-term) Blocking Peptide - Product Information**Primary Accession [Q9UII6](#)**DUSP13-L184 Antibody (C-term) Blocking Peptide - Additional Information**

Gene ID 51207

**Other Names**

Dual specificity protein phosphatase 13 isoform B, DUSP13B, Dual specificity phosphatase SKRP4, Testis- and skeletal-muscle-specific DSP, DUSP13, DUSP13B, TMDP

**Target/Specificity**

The synthetic peptide sequence used to generate the antibody [AP8455b](/product/products/AP8455b) was selected from the C-term region of human DUSP13-L184. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

**Format**

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

**Storage**

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

**Precautions**

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

**DUSP13-L184 Antibody (C-term) Blocking Peptide - Protein Information**Name DUSP13B ([HGNC:19681](#))

Synonyms DUSP13, SKRP4, TMDP

**Function**

Dual specificity phosphatase that dephosphorylates MAPK8/JNK and MAPK14/p38, but not MAPK1/ERK2, in vitro (PubMed: <http://www.uniprot.org/citations/21360282> target="\_blank">21360282</a>). Exhibits intrinsic phosphatase activity towards both phosphoserine/threonine and -tyrosine residues, with similar specific activities in vitro (PubMed: <http://www.uniprot.org/citations/10585869> target="\_blank">10585869</a>).

**Tissue Location**

Highly expressed in the testis (at protein level) (PubMed:10585869, PubMed:15252030). Also found in the skeletal muscle (PubMed:15252030).

**DUSP13-L184 Antibody (C-term) Blocking Peptide - Protocols**

Provided below are standard protocols that you may find useful for product applications.

**DUSP13-L184 Antibody (C-term) Blocking Peptide - Images****DUSP13-L184 Antibody (C-term) Blocking Peptide - Background**

Dual-specificity phosphatases, a subfamily of protein-tyrosine phosphatases, play important roles in signal transduction, cell cycle progression, and tumor suppression. The cDNA encoding a novel phosphatase, PIR1, phosphatase that interacts with RNA/RNP complex 1. Sequence analysis revealed that the predicted 329-amino acid protein has homology to several dual-specificity phosphatases and contains 2 stretches of arginine-rich sequence similar to those found in some RNA-binding proteins. In vitro, recombinant protein displays protein-tyrosine phosphatase activity and binds directly to RNA.
