

AKAP3 Antibody (Center) Blocking Peptide
Synthetic peptide
Catalog # BP8515c**Specification**

AKAP3 Antibody (Center) Blocking Peptide - Product InformationPrimary Accession [O75969](#)**AKAP3 Antibody (Center) Blocking Peptide - Additional Information****Gene ID** 10566**Other Names**

A-kinase anchor protein 3, AKAP-3, A-kinase anchor protein 110 kDa, AKAP 110, Cancer/testis antigen 82, CT82, Fibrous sheath protein of 95 kDa, FSP95, Fibrousheathin I, Fibrousheathin-1, Protein kinase A-anchoring protein 3, PRKA3, Sperm oocyte-binding protein, AKAP3, AKAP110, SOB1

Target/Specificity

The synthetic peptide sequence used to generate the antibody [AP8515c](/products/AP8515c) was selected from the Center region of human AKAP3. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

AKAP3 Antibody (Center) Blocking Peptide - Protein Information**Name** AKAP3**Synonyms** AKAP110, SOB1**Function**

Has a role in the maintenance of acrosome structure (PubMed: [35228300](http://www.uniprot.org/citations/35228300)). May function as a regulator of both spermatozoa motility and head-associated functions such as capacitation and the acrosome reaction.

Cellular Location

Cytoplasmic vesicle, secretory vesicle, acrosome. Note=Ribs of the fibrous sheath in the principal

piece of the sperm tail. Dorsal margin of the acrosomal segment

Tissue Location

Testis specific; only expressed in spermatids.

AKAP3 Antibody (Center) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.
