

**TSHB Antibody (Center) Blocking Peptide**  
**Synthetic peptide**  
**Catalog # BP8617c****Specification**

---

**TSHB Antibody (Center) Blocking Peptide - Product Information**Primary Accession [P01222](#)**TSHB Antibody (Center) Blocking Peptide - Additional Information****Gene ID** 7252**Other Names**

Thyrotropin subunit beta, Thyroid-stimulating hormone subunit beta, TSH-B, TSH-beta, Thyrotropin beta chain, Thyrotropin alfa, TSHB

**Target/Specificity**

The synthetic peptide sequence used to generate the antibody [AP8617c](/products/AP8617c) was selected from the Center region of human TSHB. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

**Format**

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

**Storage**

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

**Precautions**

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

**TSHB Antibody (Center) Blocking Peptide - Protein Information****Name** TSHB**Function**

Indispensable for the control of thyroid structure and metabolism.

**Cellular Location**

Secreted.

**TSHB Antibody (Center) Blocking Peptide - Protocols**

Provided below are standard protocols that you may find useful for product applications.

#### **TSHB Antibody (Center) Blocking Peptide - Images**

#### **TSHB Antibody (Center) Blocking Peptide - Background**

TSHB is indispensable for the control of thyroid structure and metabolism.
