

BZW1 Antibody (N-term) Blocking Peptide
Synthetic peptide
Catalog # BP8832a**Specification**

BZW1 Antibody (N-term) Blocking Peptide - Product Information

Primary Accession [O7L1O6](#)
Other Accession [NP_055485](#)

BZW1 Antibody (N-term) Blocking Peptide - Additional Information

Gene ID 9689

Other Names

Basic leucine zipper and W2 domain-containing protein 1, Protein Orf, BZW1, BZAP45, KIAA0005

Target/Specificity

The synthetic peptide sequence used to generate the antibody [AP8832a](/products/AP8832a) was selected from the N-term region of human BZW1. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

BZW1 Antibody (N-term) Blocking Peptide - Protein Information

Name BZW1

Synonyms 5MP2 {ECO:0000303|PubMed:21745818}, BZAP

Function

Translation initiation regulator which represses repeat- associated non-AUG (RAN) initiated translation probably by acting as a competitive inhibitor of eukaryotic translation initiation factor 5 (EIF5) function (PubMed: [29470543](http://www.uniprot.org/citations/29470543), PubMed: [34260931](http://www.uniprot.org/citations/34260931)). Enhances histone H4 gene transcription but does not seem to bind DNA directly (PubMed: [11524015](http://www.uniprot.org/citations/11524015)).

BZW1 Antibody (N-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.
