

DNM3 Antibody (Center) Blocking Peptide
Synthetic peptide
Catalog # BP8833c**Specification**

DNM3 Antibody (Center) Blocking Peptide - Product Information

Primary Accession [O9UQ16](#)

DNM3 Antibody (Center) Blocking Peptide - Additional Information

Gene ID 26052

Other Names

Dynamin-3, Dynamin, testicular, T-dynamin, DNM3, KIAA0820

Target/Specificity

The synthetic peptide sequence used to generate the antibody [AP8833c](/products/AP8833c) was selected from the Center region of human DNM3. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

DNM3 Antibody (Center) Blocking Peptide - Protein Information

Name DNM3

Synonyms KIAA0820

Function

Microtubule-associated force-producing protein involved in producing microtubule bundles and able to bind and hydrolyze GTP. Most probably involved in vesicular trafficking processes, in particular endocytosis (By similarity).

Cellular Location

Cytoplasm. Cytoplasm, cytoskeleton. Note=Microtubule-associated.

DNM3 Antibody (Center) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

DNM3 Antibody (Center) Blocking Peptide - Background

Members of the dynamin family, such as DNM3, possess mechanochemical properties involved in actin-membrane processes, predominantly in membrane budding.
