

DTX4 Antibody (N-term) Blocking Peptide

Synthetic peptide Catalog # BP8872a

Specification

DTX4 Antibody (N-term) Blocking Peptide - Product Information

Primary Accession

09Y2E6

DTX4 Antibody (N-term) Blocking Peptide - Additional Information

Gene ID 23220

Other Names

E3 ubiquitin-protein ligase DTX4, 632-, Protein deltex-4, Deltex4, RING finger protein 155, DTX4, KIAA0937, RNF155

Target/Specificity

The synthetic peptide sequence used to generate the antibody AP8872a was selected from the N-term region of human DTX4. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

DTX4 Antibody (N-term) Blocking Peptide - Protein Information

Name DTX4

Synonyms KIAA0937, RNF155

Function

Regulator of Notch signaling, a signaling pathway involved in cell-cell communications that regulates a broad spectrum of cell-fate determinations (By similarity). Functions as a ubiquitin ligase protein in vivo, mediating 'Lys48'-linked polyubiquitination and promoting degradation of TBK1, targeting to TBK1 requires interaction with NLRP4.

Cellular Location

Cytoplasm.

DTX4 Antibody (N-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.
