

CDC2L6 Antibody (Center) Blocking Peptide
Synthetic peptide
Catalog # BP9082c**Specification**

CDC2L6 Antibody (Center) Blocking Peptide - Product InformationPrimary Accession [Q9BWU1](#)**CDC2L6 Antibody (Center) Blocking Peptide - Additional Information****Gene ID** 23097**Other Names**

Cyclin-dependent kinase 19, CDC2-related protein kinase 6, Cell division cycle 2-like protein kinase 6, Cell division protein kinase 19, Cyclin-dependent kinase 11, Death-preventing kinase, CDK19, CDC2L6, CDK11, KIAA1028

Target/Specificity

The synthetic peptide sequence used to generate the antibody [AP9082c](/products/AP9082c) was selected from the Center region of human CDC2L6. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

CDC2L6 Antibody (Center) Blocking Peptide - Protein Information**Name** CDK19**Synonyms** CDC2L6, CDK11, KIAA1028**Cellular Location**

Cytoplasm. Cytoplasm, perinuclear region. Nucleus

CDC2L6 Antibody (Center) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

CDC2L6 Antibody (Center) Blocking Peptide - Background

CDC2L6 is one of the components of the Mediator coactivator complex. The Mediator complex is a multiprotein complex required for transcriptional activation by DNA binding transcription factors of genes transcribed by RNA polymerase II. The protein encoded by this gene is similar to cyclin-dependent kinase 8 which can also be a component of the Mediator complex.
