

p19 Antibody (N-term) Blocking Peptide
Synthetic peptide
Catalog # BP9406a

Specification

p19 Antibody (N-term) Blocking Peptide - Product Information

Primary Accession [P55273](#)

p19 Antibody (N-term) Blocking Peptide - Additional Information

Gene ID 1032

Other Names

Cyclin-dependent kinase 4 inhibitor D, p19-INK4d, CDKN2D

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

p19 Antibody (N-term) Blocking Peptide - Protein Information

Name CDKN2D

Function

Interacts strongly with CDK4 and CDK6 and inhibits them.

Cellular Location

Nucleus. Cytoplasm

p19 Antibody (N-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

p19 Antibody (N-term) Blocking Peptide - Background

p19 is a member of the INK4 family of cyclin-dependent kinase inhibitors. This protein has been shown to form a stable complex with CDK4 or CDK6, and prevent the activation of the CDK kinases,

thus function as a cell growth regulator that controls cell cycle G1 progression. The abundance of the transcript of this gene was found to oscillate in a cell-cycle dependent manner with the lowest expression at mid G1 and a maximal expression during S phase. The negative regulation of the cell cycle involved in this protein was shown to participate in repressing neuronal proliferation, as well as spermatogenesis.
