

WDR46 Antibody (N-term) Blocking Peptide
Synthetic peptide
Catalog # BP9418a**Specification**

WDR46 Antibody (N-term) Blocking Peptide - Product InformationPrimary Accession [O15213](#)**WDR46 Antibody (N-term) Blocking Peptide - Additional Information****Gene ID** 9277**Other Names**

WD repeat-containing protein 46, WD repeat-containing protein BING4, WDR46, BING4, C6orf11

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

WDR46 Antibody (N-term) Blocking Peptide - Protein Information**Name** WDR46**Synonyms** BING4, C6orf11**Function**

Scaffold component of the nucleolar structure. Required for localization of DDX21 and NCL to the granular compartment of the nucleolus (PubMed:23848194). Part of the small subunit (SSU) processome, first precursor of the small eukaryotic ribosomal subunit. During the assembly of the SSU processome in the nucleolus, many ribosome biogenesis factors, an RNA chaperone and ribosomal proteins associate with the nascent pre-rRNA and work in concert to generate RNA folding, modifications, rearrangements and cleavage as well as targeted degradation of pre-ribosomal RNA by the RNA exosome (PubMed:34516797).

Cellular Location

Nucleus, nucleolus

WDR46 Antibody (N-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.
