

**BAFF, rat recombinant protein**

TNFSF13B; 603969; Q9Y275; BAFF; BLYS; TALL-1; TALL1; THANK; TNFSF20; ZTNF4;  
delta BAFF;  
Catalog # PBV10270r

**Specification**

---

**BAFF, rat recombinant protein - Product info**

Primary Accession [D4AAC1](#)  
Calculated MW **20.7 kDa** KDa

**BAFF, rat recombinant protein - Additional Info**

| <b>Target/Specificity</b>                                                               |                       |
| BAFF                                                                                    |                       |

**Application Notes**

Reconstitute in sterile H<sub>2</sub>O to a concentration of 0.1-1.0 mg/ml. This solution can then be diluted into other aqueous buffers or stored at 4°C for 1 week or -20°C for future use.

**Format**

Lyophilized protein

**Storage**

-20°C; Sterile filtered and lyophilized

**BAFF, rat recombinant protein - Protocols**

Provided below are standard protocols that you may find useful for product applications.

**BAFF, rat recombinant protein - Background**

Rat BAFF (for B cell activating factor belonging to the TNF family) is a newly discovered novel ligand of the TNF family. BAFF plays an important role as co-stimulator of B cell proliferation and function. Recombinant human BAFF is a soluble protein containing 184 amino acid residues (MW 20.7 kDa).
