

Human CellExp Progranulin (untagged), Human recombinant protein
Recombinant Human Progranulin (Untagged)
Catalog # PBV10389r**Specification**

Human CellExp Progranulin (untagged), Human recombinant protein - Product info

Primary Accession	P28799
Concentration	1
Calculated MW	~65.0 kDa KDa

Human CellExp Progranulin (untagged), Human recombinant protein - Additional Info

Gene ID	2896
Gene Symbol	GRN
Other Names	
Proepithelin, PEPI, PC Cell-derived Growth Factor.	
Gene Source	Human
Source	HEK 293 cells
Assay&Purity	SDS-PAGE; ≥95%
Assay2&Purity2	N/A;
Recombinant	Yes
Sequence	Signal peptide and human progranulin (aa 1-593) is untagged. Reflects the native sequence with no additional amino acids.

Format

Liquid

Storage

-20°C; 0.2 µm-filtered solution in PBS, pH 7.2.

Human CellExp Progranulin (untagged), Human recombinant protein - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
- [Cell Culture](#)

Human CellExp Progranulin (untagged), Human recombinant protein - Images**Human CellExp Progranulin (untagged), Human recombinant protein - Background**

Progranulin (PGRN), also called proepithelin and PC cell-derived growth factor, is a single precursor

protein of granulins which are a family of secreted, glycosylated peptides. It is a widely expressed pluripotent growth factor which plays a role in processes such as development, wound repair and inflammation by activating signaling cascades that control cell cycle progression and cell motility. Its function in the central nervous system is of interest, as mutations in the PGRN gene were found in cases of fronto-temporal degeneration (FTLD). In addition, PGRN has also been linked to tumorigenesis. Progranulin is a biomarker for FTLD, other types of Alzheimer's Disease (AD) and potentially for MCI (Mild Cognitive Impairment). Additionally, PGRN is described as a new ligand of TNF receptors and a potential therapeutic against inflammatory disease like arthritis.
