

Matriptase Blocking Peptide
Catalog # PBV10398b**Specification**

Matriptase Blocking Peptide - Product Information

Other Accession [EDL83315](#)
Gene ID **114093**

Matriptase Blocking Peptide - Additional Information**Application & Usage**

The peptide is used for blocking the antibody activity of Matriptase. It usually blocks the antibody activity completely in Western blot analysis by incubating the peptide with equal volume of antibody for 30-60 minutes at 37°C.

Target/Specificity
Matriptase

Formulation

50 µg (0.5 mg/ml) in phosphate buffered saline (PBS), pH 7.2, containing 50% glycerol, 1% BSA and 0.02% thimerosal.

Reconstitution & Storage
-20 °C

Background Descriptions**Precautions**

Matriptase Blocking Peptide is for research use only and not for use in diagnostic or therapeutic procedures.

Matriptase Blocking Peptide - Protein Information**Matriptase Blocking Peptide - Protocols**

Provided below are standard protocols that you may find useful for product applications.
