

CLDN18.2
Catalog # PVGS1623**Specification**

CLDN18.2 - Product Information

Primary Accession [P56856-2](#)
Species
Human

Sequence
Full length

Purity
> 80% as analyzed by SDS-PAGE

Biological Activity
Immobilized CLDN18.2, His, Human (Cat. No.: Z03504) at 1.0 µg/mL (100 µl/well). Dose response curve for anti-Claudin 18.2 Antibody with the EC₅₀ of 13.75ng/mL determined by ELISA.

Expression System
Insect Cells

Theoretical Molecular Weight
27.7 kDa

Formulation **Supplied as a solution in 50 mM Hepes, 500 mM NaCl, 10% glycerol, 0.2% DDM, 0.04% CHS, pH 7.5.**

Storage & Stability
Upon receiving, this product remains stable for up to 6 months at -80°C. Please avoid repeated freeze-thaw cycles.

CLDN18.2 - Additional Information

Target Background
Claudin-18 is a protein that in humans is encoded by the CLDN18 gene. CLDN18 belongs to the large claudin family of proteins, which form tight junction strands in epithelial cells. The Expression of Isoform A2 (CLDN18.2) is restricted to the stomach mucosa where it is predominantly observed in the epithelial cells of the pit region and the base of the gastric glands including exocrine and endocrine cells (at protein level). CLDN18.2 is founded to be abundant in gastric tumors, Experimental antibody IMAB362 targets Claudin 18.2 to help treat gastric cancers.
