

Biotinyl-MCH (salmon) Synthetic Peptide

Catalog # SP3461a

Specification

Biotinyl-MCH (salmon) - Product Information

Primary Accession Sequence P49794 BIOTIN-DTMRCMVGRVYRPCWEV-COOH

Biotinyl-MCH (salmon) - Additional Information

Other Names Pro-MCH, Melanin-concentrating hormone, MCH, mch

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions This product is for research use only. Not for use in diagnostic or therapeutic procedures.

Biotinyl-MCH (salmon) - Protein Information

Name mch

Function

Plays a role in skin pigmentation by antagonizing the action of melanotropin alpha. Induces melanin concentration within the melanophores. May participate in the control of the hypothalamo- pituitary adrenal gland axis by inhibiting the release of ACTH.
