

Biotinyl-MCH (salmon)
Synthetic Peptide
Catalog # SP3461b**Specification**

Biotinyl-MCH (salmon) - Product InformationPrimary Accession
Sequence[P49794](#)
BIOTIN-DTMRCMVGRVYRPCWEV-COOH**Biotinyl-MCH (salmon) - Additional Information****Other Names**

Pro-MCH, Melanin-concentrating hormone, MCH, mch

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

Biotinyl-MCH (salmon) - Protein Information**Name** mch**Function**

Plays a role in skin pigmentation by antagonizing the action of melanotropin alpha. Induces melanin concentration within the melanophores. May participate in the control of the hypothalamo- pituitary adrenal gland axis by inhibiting the release of ACTH.
